Richmond, BC

Detail-oriented and driven Game Development student with a multidisciplinary background in programming and UI/UX design. Always excited to learn new things, expand skills and knowledge, and happy to help out and support others when possible.

Experience

Server / Cashier — Takeya Sushi

MAY 2024 — PRESENT

- Assembled takeout orders efficiently in a fast-paced environment with precision and attention to detail, including special event orders, while catering to individual customer needs and preferences
- Operated the cash register and processed transactions, while taking walk-in and phone orders and coordinating takeout pickups, consistently delivering excellent and personalized customer service
- Maintained the store throughout the day - including sanitation, food safety standards, and open and close responsibilities - while packaging, portioning, and replenishing grab-and-go items, drinks, and desserts to precise standards to ensure a clean, welcoming, and well-stocked environment

Design / Marketing Intern — Game of Apps

JUN 2021 - JUL 2021; JUL 2022 - AUG 2022

- Redesigned Game of Apps' website and mobile app user experience flows in Figma, building a more efficient and flexible design system and delivering high-fidelity mock-ups
- Developed social media marketing campaigns from strategy to scripted content, and produced node-based motion graphics for video productions in DaVinci Resolve
